Workshop Catalogue

ACCELEVENTS ACCESS Code	Title	Description	Presenters/Coordinator
A01	A01: Why Speech-Language Pathology is AWESOME!	This presentation will give you a general overview of the profession of speech-language pathology (education needed, work settings, clientele, salary). You will watch 'a day in the life of an SLP' video and if time, take an interactive quiz.	Stephanie Moir Sydelle Murphy
A02	A02: Discovering Occupational and Physiotherapy	In this workshop you will gain an understanding of occupational therapy and physiotherapy, the similarities and difference of each distinct profession. You will gain an understanding of the broad scope of practice areas and may be surprised where we work! You will hear from recent graduates as to the educational requirements for the university based programs, why they chose the area they did, as well as from experienced therapists working in the field.	Kathy Couture Cheryl Sabarre
A03	A03: Getting Psyched About Psychology	In this workshop, you will be introduced to the field of clinical psychology and learn about the role of psychologists at BC Children's Hospital. You will take part a treatment planning exercise for a patient case vignette.	Dr. Erin Moon Dr. Hope Walker
A04	A04: Allergies and the Immune System: Why do they exist?	You will learn all about the fascinating world of the immune system and allergies. Do you know anyone with a peanut allergy or a grass or cat allergy? In this workshop you will find out more about how we test and treat different allergies. You will even be equipped for an emergency!	Dr. Bahar Torabi
A05	A05: A Day in the Life of a Registered Midwife	Explore pregnancy through the lens of midwifery care. We will explore prenatal care (palpating a pregnant belly and finding a fetal heartbeat), birth equipment (what we bring when clients choose to birth at home), newborn care (a head-to-toe baby exam), as well as what is involved with being a Registered Midwife in BC and how to become one.	Laurie-Ann Cheng Marella Falat Dawn Henderson Charmaine Laride Katie McCallum Natasha Patrick
A06	A06: Murder Mystery: Immune attack	There's been a murder and each of the body's immune cells are suspects. Join us to discover who was just the messenger, who did the best they could, and who was only trying to help but took it too far!	Christine Wardell
A07	A07: COVID-19 vaccine development, implementation, and vaccine hesitancy	This workshop will explore the process of vaccine development (e.g., clinical trials) worldwide, the difference between mRNA and viral vector vaccines, and how the subsequent stages of vaccine implementation take place. Presenters will also discuss early results from a BC-based study of COVID vaccine hesitancy.	Avani Lamba Dr. Wendy Pringle Michael Woo
